Certificate for Stockpond Water Right

CERTIFICATE NO.: 39

PRIORITY OF RIGHT: 1943

Under the provisions of Article 2.5, Chapter 1 of Part 2 of Division 2 of the Water Code,
Wellesley Runcie

995 South Daniel Way, San Jose, CA 95128

has filed a claim of water right for a stockpond constructed prior to January 1, 1969, and has applied to the State Water Resources Control Board for evidence of such water right.

It appears from evidence provided by the claimant and from such other information as has been obtained by the Board that the stockpond described herein had a capacity of 6 acre-feet on January 1, 1975; that the stockpond was constructed in 1943; that the stockpond is used primarily for stockwatering purposes; and that the stockpond was not involved in water rights litigation between private parties prior to January 1, 1974.

It therefore appears and the State Water Resources Control Board certifies that the above-named claimant has complied with the statute and has a water right within the meaning of Water Code Section 1226.1, with a priority of 1943, to collect and hold in storage 6 acre-feet of water for stockwatering, including domestic and recreational use which is incidental to stockwatering use, at the following location:

Stockpond on Unnamed Stream tributary to Bear Creek
being within the SW 1/4 of NW 1/4 of Section 29, T 4N, R 10E, MD B&M
in Calaveras County.

The water right described herein is subject to other stockpond water rights on which certificates have been issued by the Board with an earlier priority, to appropriative water rights with an earlier priority initiated prior to December 19, 1914, to water right permits or licenses issued prior to January 1, 1975, and to riparian rights.
